WELCOME

Thank you for considering Gambles Photography for your wedding day! I would love to capture those once-in-a-lifetime moments for you to cherish forever more. I know choosing a photographer is a big decision: Do your personalities click? Do you like the style? Is the photographer offering everything you need and want? This booklet will give you more insight on Gamble's Photography, and hopefully we're a perfect match!

Want to know a little bit more about me? My love for the camera started when I was a preteen and I've been known to have a camera around my neck ever since. I started Gambles Photography in 2011 and since then I've photographed celebrities, traveled the world, and been featured in multiple magazines and exhibits. What is my favorite thing to shoot? Emotion! Capturing true candid is my specialty: that first look, that first kiss, that moment when a couple ties their lives together forever and it's true bliss. I'm not afraid of getting a little dirty (as I'm sure you can tell). I'm climbing trees, standing in a river, fighting the rain, whatever it takes to get the EPIC shot!

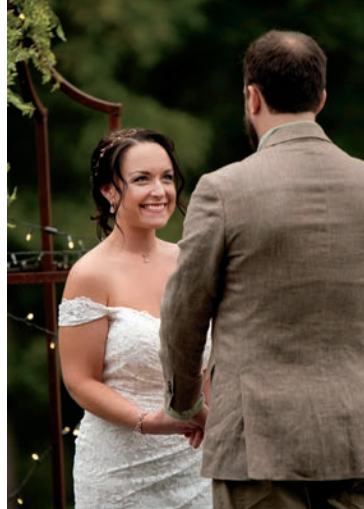

So go ahead, take a peek! If you like what you see, give me a call! I would be honored to share in the joy of your wedding day.

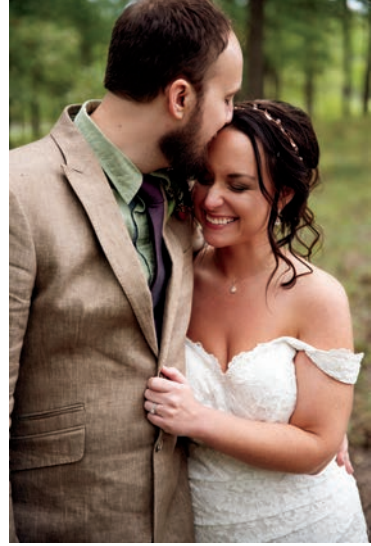

Oh, and cheers to your engagement!

Sincerely,

Erin G.

“

Erin was truly able to capture every special moment of our wedding! I've had photographers in the past that didn't quite have the same vision as I did, but Erin really worked to get every shot that I wanted - and much more! I especially loved our exit photo which was totally Erin's idea. She got all of our guests involved and having fun! I would recommend Erin for anyone planning a wedding, and I know that I'm going to use her for all of our family photos from now on!

MY PHILOSOPHY

The classic portraits - everyone looking and smiling at the camera - are important... but that's not what you're going to want to remember about your wedding day. It's about those real, candid moments: the first teary-eyed look walking down the aisle, the fist pump during the first kiss, the twirl that went wrong during your first dance when you both almost fell. Those real moments are what you'll want to look back on for years to come. We specialize in these candid moments! Not only will we capture the emotion, but we'll do it in a beautiful and artistic way.

We also refuse to leave a wedding until we capture something EPIC! This might include playing in the rain, jumping on a ferris wheel, getting in a pond - You can bet it will be unique and fun, and an AWESOME SHOT!

DESTINATION WEDDINGS

If it is your dream to have your wedding on the steps of a castle in Ireland, in a chateau in France, or in the vineyards of an Italian winery, but you don't even know where to begin looking for a photographer... Don't worry about it - contact us! Hiring a destination photographer is great because we can build a relationship before your wedding, making you feel comfortable on the big day. Instead of meeting your photographer on the day of your wedding and hoping for the best, we can arrive at the destination a couple days (or even a week) early to explore, play, and take advantage of the amazing location! Plus, hiring a destination photographer and covering their travel costs is often more cost effective than hiring a local photographer. Gambles Photography offers destination wedding packages starting at \$3,000!

“

I was hesitant to book a photographer. With plans for a destination wedding, I was convinced it would be more practical and cost effective to book someone at our destination. After countless hours of research and trying to get to know a photographer only through email, I decided to go with my gut and book Erin. I met her in person at a bridal expo and all the girls in my bridal party instantly had a good feeling.

Looking back at our wedding planning journey, my husband and I agree, this was one of the best decisions we made. Yes, there were additional travel expenses, but these were nothing compared to the added benefits. Erin was onboard, ready to help with any wedding need (yes, much more than just photography) all along the way. With other photographers we would have been limited to a few hours on our wedding day... With Erin on our journey, we were able to take pictures in multiple breathtaking locations over multiple days. She was constantly going to the extreme to get that AMAZING shot whether that meant hiking a cliff, laying on the ground, jumping a fence, or climbing on someone's shoulders.

As if that wasn't enough, she was constantly stepping up to help with everything from flowers to bridesmaid's hair and anything else that came up. She was super flexible and accommodating. She was 100% there for us throughout our destination wedding journey and the result is truly EPIC wedding pictures that we are constantly hearing family, friends, and even strangers talk about.

ENGAGEMENTS

Engagements are so engaging!

Romance is in the air and the anticipation of a lifetime together has you bursting with excitement ~ and you want to share the news with the world! An engagement session is the perfect opportunity for you, as a couple, to get comfortable in front of the camera. You'll also get used to us: our shooting style, how we work, all the bad jokes, etc. We can also do things that we typically don't have time for on the wedding day... Like shoot with an airplane, have a paint war, or go for a long hike!
